

XYZ HIGH PERFORMANCE BRAKE KIT

➤ **Features:**

1. Rotor thickness has 26mm, 28mm, 32mm, 36mm.
2. Rotor with larger vents to have ability to dissipate heat.
3. Lightweight aluminum centre hat with hard anodizing electrolyte treatment for durability.
4. Squeeze forged 6-piston caliper (painted red, yellow or anodized gold, black or any other painted colors).
5. Caliper mounting bracket with high tensile steel studs.
6. DOT stainless steel braided Teflon brake line.
7. High performance sport brake pads (race pads are optional).

Size	286mm	303mm	330mm	355mm	380mm	400mm
Wheel	15"	16"	17"	18"	19"	20"

✓ **ROTOR**

XYZ slotted rotor is the best choice for those high performance applications, this rotor type helps to clear debris on the rotor, in addition, it can increase the bite characteristics of the brake pads. Cast iron rotor has 32mm thickness and arc vents for better cooling.

✓ **Floating Disc**

All XYZ brake kits come with regular brake rotors unless customers specify otherwise. XYZ floating disc is available for additional cost for 303mm, 330mm and 355mm brake kits, and no extra cost for 380mm and 400mm brake systems. As for 286mm brake kit, it comes with regular rotors only, and floating disc is not available for this rotor size.

✓ **CENTRE HAT**

Centre hat is made from lightweight high grade aluminum which has ability to dissipate the heat. The hard anodizing electrolyte treatment is adopted for durability. 90% applications come with inner drum brake which can retain the OE parking function. The inner drum brake is made from aluminum available for parking so it is not for movement of vehicle like drifting.

✓ **CALIPER**

High performance 8-piston aluminum caliper is squeeze forged.

✓ **Caliper Color Options** : Painted red, yellow or anodized gold, black are our caliper standard colors.

Anodized Gold

Anodized Black

Painted Yellow

Painted Red

Painted Gray

Painted Gold

Painted Blue

Painted Any Color

Painted gray, gold, blue or any other painted colors to match your vehicle are available as well; however, it requires US\$100 extra for 2 calipers (1 pair). Lead time is 15 days.
